Virtual Workshop
Intensive week mo 30th March to fri 3rd April

The main goals of this virtual workshop are:
• to conclude the **preparatory phase** (analysis Urban Quarters Vienna)
• to start the **conceptual phase** focusing the understanding of the overall conditions of urban development in Lviv
• to analyze both locations for the following urban design process: "Rema-site" and "Persenkivska-site"
• to define the main goals for the future development
• to rise communication in between the 18 participants of the Entwerfen

The virtual workshop will be composed of some daily groupwork-tools and a following daily presentation-/
discussion-forum from 2 pm – to 5 pm.
For the virtual workshop some preliminary material about Lviv is to be provided by owncloud:
• City Portrait Lviv mp4 file, 33 min
• "My personal Lviv" – artistic approach of an urban experience done by students from TU Wien at
  Density Lab 2019
