

THE MOLES AND BEACHES, WHICH ARE NOT OPENED TO THE PUBLIC NOW, WILL BE MADE ACCESSIBLE. THE MOLES WHICH WILL BE PLANKED WOODEN CAN BE USED AS FOOT-BRIDGES FOR BATHING, ON THEM THERE ARE WOODEN FURNITURES FOR SITTING AND LYING. AT SOME PLACES THERE ARE HUGE WOODEN WEDGES WITH SITTING-STAIRS-BUILT INTO THE SEA FOR SITTING AND GETTING CLOSER TO THE SEA.

## ACCESSIBLE MOLES AND BEACHES

AN EXTENSION OF THE PROMENADE INTO THE PARKS AND THE HILLS BEHIND OUGHT TO BE MADE BY ARTIFICIAL MODELLED LANDSCAPES. THERE ARE TERRASSES CUT IN WITH FRUNITURES FOR RESTING OR CAFES OR RESTAURANTS. THE TERRASSES ARE LINKED TO THE PROMENADE WITH LONG RAMPS OR STAIRS.

## LINK TO THE HILLS

A NEW, MORE FRIENDLY MATERIAL OUGHT TO GIVE THE PROMENADE OF ALUSHTA A NEW IDENTITY. INSTEAD OF THE COLD AND MONUMENTAL CONCRETE THERE WILL BE USED THE DURABLE AND SALT-RESISTENT WOOD OF PINES OR LARCHES WHICH ARE COMMON TREES AT THE CRIMEA.

## NEW IDENTITY WITH WOOD

THE PROMENADE FOR THE PEDESTRIANS, WHICH IS VERY NARROW AT THE MOMENT, IS REPORTED TO BECOME BROADER AND OUGHT TO BE SEPERATED FROM THE STREET FOR THE CARS BY AN AVENUE OF TREES.

## WIDENING / SEPARATING PROMENADE

THE WHOLE PROMENADE WILL BE DIVIDED IN SEVERAL ZONES: A PROMENADE FOR PEDESTRIANS AT THE COAST-SIDE, AN AVENUE, A PARKING-STRIPE, A DOUBLE-TRACKED STREET, A SECOND PARKING-STRIPE AND A PAVEMENT FOR PEDESTRIANS. THE PROMENADE FOR THE PEDESTRIANS IS AGAIN DIVIDED INTO TO PARTS: A PAVED ZONE FOR PASSING THROUGH, AND A FUNCTIONAL WOODEN PLANKED ZONE WITH RAMPS AND STAIRWAYS DOWN TO THE BEACH AND A CAFE, TOILETS AND CHANGING CUBICLES.

## ZONING PROMENADE

A SYSTEM OF STAIRS AND RAMPS GETTING UP AND DOWN IN THE SHAPE OF A SPIRAL ARE LINKING THE LEVELS OF THE PROMENADE AND THE BEACHES. A STAIRWAY IN THE MIDDLE OF THE PROMENADE BRINGS YOU DOWN INTO A VOID, WHERE A CAFE, TOILETS AND A CHANGING CUBICLE ARE SITUATED. FROM THE VOID YOU HAVE DIRECT ACCESS TO THE BEACH AND THE MOLES. A RAMP ALONG THE PROMENADE BRINGS YOU UP TO THE PROMENADE-LEVEL AGAIN.

## SPIRAL / LINKED LEVELS

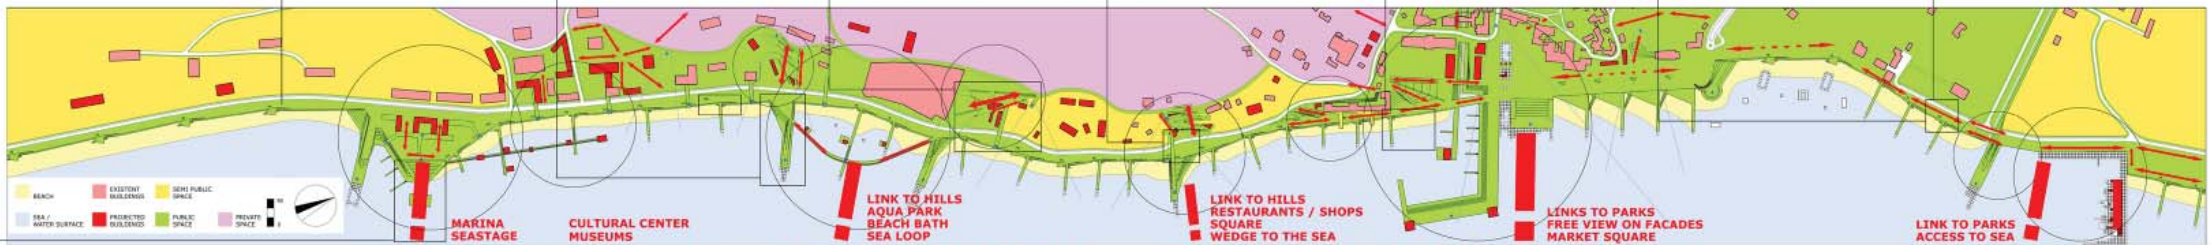

TO GET THE PROMENADE MORE CLEARLY ARRANGED, THE SMALL STORES ON THE PROMENADE ARE CONCENTRATED AT SEVERAL PLACES WHERE STRONG IMPULSES ARE GIVEN. THE NEW SHOPS ARE VARIABLE STANDARDISED MODULS WHICH CAN BE COMBINED. THESE CENTERS ARE ALSO ADJUSTED WITH SITTING-FURNITURE.

## CENTERING SHOPS

NOW THE PROMENADE IS A 3 KM LONG UNSTRUCTURED STRIPE, WITH GIVING IMPULSES AT CERTAIN POINTS THE PROMENADE GETS SEVERAL CENTERS WITH SPECIAL UTILISATIONS. SO THERE ARE CREATED SQUARES, WEDGES BRINGING THE PEOPLE CLOSER TO THE SEA AND LINKS TO THE HILLS BEHIND.
